B.M2 Justify Problem Definition requirements

You will need to justify how these will help the design

- Be fit for purpose
- Meet the users needs

This is not saying if your design is any good or not. It must meet the needs of the user.

You need to use keywords such as ‘because’ and ‘therefore’

BC.D2 Evaluate Problem Definition requirements

You will need to list the pros of these requirements

You will need to list the cons of these requirements

You will need to come up with a conclusion showing how this will or will not **result in a design that meets client requirements. This should be straightforward.**

If it does not result in an effective website, do not be afraid to say so.

You need to use keywords such as “I think”, “In conclusion”, “Finally”, “and so”, ‘because’ and ‘therefore’
